

Miniature Circuit Breakers L7

- Twin purpose terminals, Lift/Open mouthed
 - High selectivity between MCB and back-up fuse due to low let through energy
 - Switch position indicator red-green
 - Switching toggle in rated current color
 - Rated breaking capacity as per IEC/EN 60898: 6kA/10kA
 - Characteristic D for industrial applications
- Note: All L7-MCBs are supplied in standard cardboard box, please take into account packing units cardboard box/ship ping box
