

Auxiliary Contact Blocks

Description: the auxiliary contact blocks are used for the operation of auxiliary circuits and control circuits for standard industrial environments;

Type of auxiliary contact blocks for front mounting:

-CA5, 1 or 4-pole block, instantaneous with NO, NC contacts;

Select the 4-pole auxiliary contact blocks CA5 type, according to the contactor type for compliance with the standard requirements;

Type of auxiliary contact blocks for side mounting:

-CAL, 2-pole block, instantaneous NO+NC contacts;

For clipping onto the right, left hand side of the contactors:

The CAL18-11B is a second block for mounting in addition to a first CAL18-11 block, right, left hand of the A145...A300 contactors;

The auxiliary contact blocks are equipped with screw type connecting terminals delivered open, protected against accidental direct contact and bear the corresponding function marking;

	For Contactors	Auxiliary Contacts				Type	Order Code	Package Weight
